

ArcSight Solutions and Add-ons Compatibility to ArcSight Main Products

This document summarizes the versions of ArcSight Solutions and Add-ons supported in ArcSight products. This is a supplement to the Add-ons documentation, as often an existing version of the Add-on is supported on a newer version of the main product, but its Release Notes are not updated to reflect that. For example, PCI Compliance Insight Pack 3.0 is supported on ArcSight Express 4.0, but it was released prior to ArcSight Express 4.0, and therefore the Release Notes do not list ArcSight Express 4.0 as supported.

Note: We endeavor to keep this list up to date; however, it is by no means complete. Combinations not listed here may still be supported. Please check the Release Notes of the specific solution and/or Add-on for additional products and versions compatibility.

	Compliance Insight Packages	ArcSight IdentityView	Application Security Monitor (AppSM)	Reputation Security Monitor (RepSM)	Threat Detector	Enterprise Connectors	Other
ArcSight Express 5.0 (Oracle based)		Active Directory Model Import Connector (AD MIC) 5.1.6.6015		Not compatible			
ArcSight Express 3.0 (CORR)		Active Directory Model Import Connector (AD MIC) 5.0.1.5644		Not compatible			
ArcSight Express 4.0 (CORR)	FISMA 5.0 SP1 HIPAA 2.0 IT Governance 4.0 SP2 NERC 1.0 PCI 3.0 PCI 4.0 SOX 4.0	2.0 2.01SP1 2.02 (for WUC parser v1 which is pre-installed on Express 4.0) 2.51 (2550 actors) 2.52		1.01 1.5 1.51 1.52 1.53		Service Manager	Cisco 1.0 ¹
ArcSight ESM 5.0				Not Supported			

¹ Is bundled with the main product
